

**Are you ready to face new challenges?  
Do you wish to grow with an international high-tech leader?  
If so, we want to meet you.**

*Adacel Inc. is recognized for its innovative software solutions for operational air traffic management (ATM) and air traffic control (ATC) simulation and training. Our success in Canada and the international market has created opportunities for an experienced professional to join us in the following role:*

**VISUAL DATABASE MODELER**  
(Permanent / Temporary openings – Brossard)

Responsibilities:

- Design and build 3D visual databases for Adacel's aerodrome simulators;
- Build 3D aircraft and ground vehicle models (civil and military);
- Enhance existing airport databases and extensive model library;
- Photo texturing.

Requirements:

- Several years experience in modeling, preferably in simulation, with a leaning towards the technical;
- Ability to read and understand AutoCAD and airport layout drawings, and good eye for colour, proportions, and an artistic flair;
- Knowledge of MultiGen Creator or AutoDesk 3DS MAX or similar, is a plus;
- Knowledge and work experience with Adobe Photoshop mandatory;
- Understanding of architectural and civil plans;
- Knowledge of GIS data;
- Experience in 3D real-time modeling for simulation (asset);
- Other 3D applications (asset);
- Working knowledge of Windows/Unix (asset);
- Familiarity of Image Generators (IG) (asset);
- Interest in aviation (asset);
- Motivation, initiative, innovation and creativity are definite assets.
