Adacel Systems, Inc. Opens New Facility in Florida
Orlando Facility Centralizes Adacel's Training and Development Presence

Orlando, Florida (December 1, 2003) – Adacel, the leading developer of simulation, voice recognition, operational air traffic management and software solutions for civil and military aviation, announced today that it has opened a new office in Orlando Florida. This state-of-the-art facility is designed to meet the needs of its current and future employee base in the United States and it will be the central location for training and development.

"The opening of Adacel Systems Inc.'s (ASI) new 12,000 square foot facility in Orlando illustrates the company's strong commitment to a lasting development presence in Florida," said Michael Asch, Adacel's Vice President Sales and Marketing. " We have developed a strong appreciation for the culture of simulation innovation and quality of life in this region. ASI's facility will serve as a hub of technology excellence in Florida, reflecting the deep and diverse local talent pool."

The Orlando Facility will allow ASI to maximize its national and regional customer support reach as well as its US sales, training and development efforts. By opening a facility in Orlando, Adacel has solidified its commitment to the community, creating a strong bond with the US market and the Florida talent pool. "We are looking forward to continued product and corporate growth in the sunshine state", concludes Asch.

"We have enormous potential in Orlando – a diverse economy, a highly educated workforce, and major academic and research institutions," said Buddy Dyer, Mayor of Orlando. "Today's announcement by ASI is another step in reaching our full potential. We appreciate ASI's commitment to employing our citizens and through ASI's many community outreach programs, also making Orlando an even more attractive place to love and work."
